

ARJUN MITTAL

(647) - 268 - 3922 | arjun.mittal@mail.utoronto.ca

Experience

RBC Capital Markets | ETF – Quantitative Trading Analyst

May 2019 – Present | Python, KDB/Q

- Designed and implemented a strategy to **manage book risk during periods of high market volatility**, resulting in savings of a large five figure amount.
- Engineered new process to **optimize system parameters**, increasing RBC's ETF market share by 8% within 2 months.
- Created new analytical reporting suite, **improving the availability and accessibility** on key performance indicators, helping top executives make important investment decisions.
- **Collaborated** closely **with clients** to **discuss use cases and feature prioritization** for an inventory management tool.

Scotiabank | Payments - Software Engineering Intern

May 2018 – August 2018 | Java, DB2, ESQ, Javascript, Google Cloud

- Collaborated on ScotiaConnect, a digital banking platform, creating an automated, end to end secure file transfer management system, **supporting transactions valued at more than \$3 Billion**.
- **Architected real-time dashboard on Google Cloud Services** to help senior executives visualise & monitor customer KPI's.
- Automated generation of SQL database scripts, to sync development environments with production environment, **decreasing deployment time by 50%**.
- Took initiative and additional responsibilities to **lead daily stand-ups, sprint reviews and retrospectives** in an agile environment.

Clausehound | Software Engineering Intern

May 2017 – August 2017 | JavaScript, HTML, CSS, UnBounce

- Integrated web analytics with customer retention management dashboard, **leading to an increase of click-through rate by 15%**.
- Redesigned Clausehound landing pages through A/B testing **increasing customer retention rate by 20%**.

Projects

GrubIt | HTML, CSS, JavaScript, Node, Express, Python

Winner at EngHacks 2018 - Designed a tinder like web application used to ease decision making process of where to eat. Optimized recommendations using sentiment analysis on yelp reviews.

InvestIt Wealthsimple | HTML, CSS, JavaScript, Express, Node

Created an equity crowdfunding app that reinvests capital generated from users. Integrated Wealthsimple services using OAuth2 to handle all investments.

Education

University of Toronto | 2021

BASc of Computer Engineering
