

ARJUN MITTAL

(647) - 268 - 3922 | arjun.mittal@mail.utoronto.ca

Education

BASc Computer Engineering | University of Toronto

GPA: 3.0 - Class of 2020

Experience

Clausehound | Software Engineering Intern

May 2017 - August 2017 | JavaScript, HTML, CSS, Klipfolio, UnBounce

- Redesigned Clausehound landing pages through A/B testing with UnBounce.
- Assisted in integrating web analytics with Klipfolio for user journey mapping with graphical visualization.

UTAT | Aerospace Design Team - Avionics Division

September 2016 - Current | C/C++, Arduino

- Implemented software in telemetry system to read flight pattern statistics from sensors, and transmit data to ground unit.
- Currently building ground station U.I to monitor rocket flight.

Blue Sky Solar Racing | IT Division

April 2017 - Current | JavaScript, HTML, CSS, PHP, SQL

- Leading the development of the club's internal website, used to store important documentation, and display club announcements.
- Responsible for server maintenance, backups, and network infrastructure.

Projects

Urban Tracker | Python, Java, C

Developed an award-winning app, tracking an individual's carbon emissions. Used arduino sensors to collect energy usage data.

Coindex | HTML, CSS, E-JavaScript, Blockstack

Created a cryptocurrency portfolio manager; a decentralized website application, built on top of blockstack. The backend was handled by blockstock, with data being stored on the individual user's computer.

Remote Connection Manager | HTML, CSS, JavaScript, PHP, SQL

Built a platform used to check which computers are in use before remotely connecting to said computer via TeamViewer.

Deliverance Statistics Collection | C/C++, Arduino

Used an arduino pro to collect data from an inertial measurement unit and a barometer to track a rockets flight patterns, and transmit information via radio communication.

Skills

Languages

C/C++ • Java • Python
JavaScript • PHP • SQL
Turing •

Tools + Frameworks

React • Express • Git •
Android Development •
jQuery • HTML5 •
CSS3 • MATLAB

Awards

2017 Qhacks - Best Environmental Hack

Best hack contributing to a greener and more sustainable future.

2016 - YRDSB Directors Achievement Award

Awarded for demonstrating significant accomplishments in the community. (1 of 24 across 120,000 students).

2016 - Valedictorian

Awarded for notable academic achievements and exceptional involvement within school life.

2015/2016 - International DECA Competitor

Represented Canada at the International stage (USA).
